SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Normal Operations	Normal Operations	Normal Operations

Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

Situation Overview

- **California State of Emergency Proclamation**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

- **Global Health Advisory**

On 08/06/20, in close coordination with the U.S. Centers for Disease Control and Prevention (CDC), the Department of State lifted the Global Level 4 Health Advisory. The Global Advisory, initially put in place on 03/19/20, advised U.S. citizens to avoid all international travel due to the global impact of COVID-19. For more information visit: <https://www.state.gov/>.

- **State Executive Order N-33-20**

On 08/28/20, California introduced a blueprint for reducing COVID-19 in the state with revised criteria for loosening and tightening restrictions on activities by counties. Visit [Blueprint for a Safer Economy](#) for more information and to check the status of a county. This blueprint included a health equity metric to be used along with other metrics to determine a county's tier. The purpose of [Equity Metric](#) is to ensure California reopens its economy safely by reducing disease transmission in all communities.

Confirmed Global COVID-19 Cases – Per Worldometers COVID-19 Live Updates as of 12/16/20 at 1100 hours:

- 74,138,730 (+627,466) total confirmed cases in 218 countries.
- 1,648,343 (+13,658) total deaths.

Confirmed United States COVID-19 Case – Per Centers for Disease Control and Prevention (CDC) as of 12/16/20 at 1000 hours:

- 16,519,668 (+201,776) total confirmed cases.
- 302,992 (+2,960) total deaths.

Confirmed California COVID-19 Cases - Per Medical Health Coordination Center as of 12/16/20 at 1100 hours:

- 1,671,081 (+53,711) total confirmed cases.

- Please see attached California Health & Human Services (CHHS) Agency / Cal OES Joint Situation Report for additional details.

Active Weather Warnings, Watches and Advisories by County:

<http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

WEATHER KEY POINTS

12/17/20 - 12/23/20

Thursday

- Elevated fire weather conditions once again today across the southern California mountains with localized wind gusts to 40 mph and very low humidity persisting
 - Gusty winds to 45 mph this afternoon and tonight across portions of southern California could cause travel difficulties and minor damage
- Rain and higher elevation snow will gradually end this afternoon
 - Snow levels 4,000-5,000 feet
 - Locally heavy rainfall expected which may lead to river rises across northern California, but no significant flooding is expected
 - Moderate snow accumulation expected for the northern and central Sierra, with localized amounts in excess of 1 foot
 - Isolated thunderstorms are possible across central CA

Friday-Thursday

- Some additional precipitation possible across far northern California through the weekend, though uncertainty is high about what areas might see rainfall
- Elevated to locally critical fire weather conditions return for the southern California mountains this weekend, with locally gusty winds to 40 mph and low humidity

CALIFORNIA WEATHER IMPACTS

12/17/20 - 12/23/20

<u>Hazards / Day</u>	THU	FRI	SAT	SUN	MON	TUE	WED
